“Our Greenway”

A Citizens Support Organization

Helping to make

Egans Creek Greenway

an even better place

Visit our web site at:
www.ourgreenway.org

WHO WE ARE

Formed in 2007, *Our Greenway* is a grass roots community organization made up of individuals whose goal is to create a greater awareness, understanding and appreciation of Egans Creek Greenway.

The name *Our Greenway* was selected to convey the notion that as a community the Greenway belongs to us...it is ours. As such, we have a vested interest in its wellbeing.

Our Greenway sponsors, organizes and leads activities which enable participants to experience the Greenway firsthand. Additionally, the organization through its web site www.ourgreenway.org acts as an ever growing repository of Greenway-specific information with an emphasis on its natural environment and opportunities for recreation.

Our Mission The mission of *Our Greenway* is to provide the public with information about, and first-hand experiences on, Egans Creek Greenway with the objective of enriching individuals, and as a result, in them fostering a sense of appreciation, ownership, and responsibility for this valuable community asset.

THINGS WE DO

Lead

We sponsor, organize and lead activities which take place on the Greenway so that participants can experience it first-hand. Nature walks, birding walks, litter cleanups and invasive plant pulls are some examples of these activities.

Educate

Our Greenway activities are designed to be lighthearted and enjoyable. At the same time, we try to weave interpretation and fun facts into our activities so that participants always return home with a greater understanding of the Greenway than when they arrived.

Inform

Our web site www.ourgreenway.org serves as a community resource for information regarding the Greenway's natural environment. Also, available for download are trail maps, bird and plant lists. Details of upcoming activities are posted as well.

Collaborate

We collaborate with the City of Fernandina Beach Parks and Recreation Department in a volunteer role to assist with Greenway tasks. In addition, we make Greenway project and improvement recommendations.

HOW YOU CAN HELP

If you share our values and vision there are two ways you can help. Become a **friend** or **volunteer**. Better yet become both!

By becoming a **friend** of *Our Greenway*, you make a statement about your personal commitment to Egans Creek Greenway. Your contribution helps to support our efforts and defray expenses.

If you share our enthusiasm for making the Greenway an even better place, then we need you as a **volunteer**.

Show your support. Complete the attached form and return it to us. Thank you.

About Egans Creek Greenway

The Greenway, located on the northern end of Amelia Island, Florida, was opened for public use in the summer of 2001 as an undeveloped park for passive recreational use. Funding for land acquisition was provided by Florida Communities Trust and the City of Fernandina Beach. It consists of over 300 acres of protected lands, managed by the City of Fernandina Beach. This natural setting with its grass-covered trails is ideal for hiking, biking, dog walking, wildlife and nature observation and photography.
