

WHO WE ARE

Formed in 2007, *Our Greenway* is a grass roots community organization made up of individuals whose goal is to create a greater awareness, understanding and appreciation of Egans Creek Greenway.

The name *Our Greenway* was selected to convey the notion that as a community the Greenway belongs to us...it is ours. As such, we have a vested interest in its wellbeing.

Our Greenway sponsors, organizes and leads activities which enable participants to experience the Greenway firsthand. Additionally, the organization through its web site www.ourgreenway.org acts as an ever growing repository of Greenway-specific information with an emphasis on its natural environment and opportunities for recreation.

Our Mission The mission of *Our Greenway* is to provide the public with information about, and first-hand experiences on, Egans Creek Greenway with the objective of enriching individuals, and as a result, in them fostering a sense of appreciation, ownership, and responsibility for this valuable community asset.
